PROFESSIONAL SUMMARY

Full Stack Developer with 6 months of experience specializing in modern web technologies, with strong proficiency in Angular 17+, TypeScript, PHP, and jQuery. Experience in developing scalable web applications, from e-commerce systems to administrative dashboards, applying agile methodologies and development best practices. While versatile in full-stack development, focused on specializing in Frontend development with Angular. Known for adaptability, problem-solving skills, and effective teamwork. Proficient in CSS frameworks such as Tailwind and Bootstrap, as well as RESTful API development and SQL database management. Available for remote or hybrid work, with keen interest in challenging projects that foster professional growth.

PROJECTS

CamarasDeSeguridadFacil.cl

Full Stack

Angular, TypeScript, PHP, MySQL, Tailwind | September 2024 – Active

Developed an online security systems store with a focus on sales optimization:

- Implemented a PHP API managing inventory, transactions, and authentication
- Configured JWT authentication using Firebase, ensuring user privacy and security
- Created reusable and efficient Angular components for the frontend, enhancing user experience and loading speed
- Implemented Tailwind CSS for custom styling and responsive design

CCTV-Inclusive

Full Stack

PHP, jQuery, MySQL, Bootstrap | June 2024 – September 2024

Developed an administrative dashboard for nationwide camera system management:

- Utilized PHP backend for data processing and camera management across multiple locations
- Implemented asynchronous requests with jQuery (AJAX) for real-time data flow
- Designed interfaces with Bootstrap 5, ensuring mobile device adaptability and system usability

Portal Mineduc

Full Stack

Django, JavaScript, HTML, CSS | April 2024 – July 2024

Thesis project to unify student management in public schools:

- Implemented Django backend with a robust database to manage students' academic and administrative records
- Used JavaScript for dynamic interface interactions and CSS to ensure clean and accessible presentation

SKILL STACK

Programming Languages: HTML, CSS, Javascript, TypeScript, PHP, Python, SQL.

Frameworks: Django, Angular, React, Tailwind, Bootstrap.

Data Bases: MySQL, Microsoft SQL Server.

Others: JWT, Firebase, API RESTful, AJAX.

Languages: Spanish (native), English (Medium-Advanced)
